Executive Summary

- At 30 September 2019, 134,930 people had access to a home care package. This is a 7.8 per cent (9,811) increase since 30 June 2019 (125,119).
- Of the 134,930 people, 118,050 were in a home care package with the remaining 16,880 people assigned a package and considering whether to take up the offer.
- The 118,050 people in care at 30 September 2019 represented a 10.6 per cent (11,343) increase from 30 June 2019 (106,707) and a 30.2 per cent (27,404) annual increase from 30 September 2018 (90,646).
- In the September 2019 quarter, 18,367 people entered a home care package for the first time. This is the highest quarterly inflow of people into care since the commencement of the Increasing Choice reforms in 2017.
- At 30 September 2019, there were 62,942 people seeking a home care package at their approved level, who had not yet been offered access to a lower level package. Of these people, 96.1 per cent (60,495) had been provided with an approval to access support through the Commonwealth Home Support Programme (CHSP).
- The number of people with a level 4 approval who were seeking a package at their approved level, who had not yet been offered a home care package, fell by 43.7 per cent (7,065) from 30 September 2018 (16,170) to 30 September 2019 (9,105).
- At 30 September 2019, there were 49,295 people who were seeking a home care package at their approved level, who had already been offered a lower level package. Of these people, 57.2 per cent (28,206) chose to take an offered package, 19.1 per cent (9,391) were deciding on whether to take up their offer and 23.7 per cent (11,698) had not taken up their previous offer(s) of a lower level package.
- Of all people waiting for a home care package at their approved level at 30 September 2019, 97.8 per cent (109,790) had been provided with the opportunity to connect to some form of Commonwealth subsidised home care support through CHSP or a HCP.
- There were 28,638 approvals for a home care package in the September 2019 quarter.
- There were 48,100 home care packages released in the September 2019 quarter, at an average of 3,700 per week.
- There were 926 approved home care providers with a home care service. This decreased by 0.3 per cent (three providers) since 30 June 2019 (929).

INTRODUCTION

OVERVIEW

The Australian Government recognises that people want to remain living independently in their own homes for as long as possible. To support this, the Government subsidises packages through the Home Care Packages Program (HCPP) to provide home-based care that can improve senior Australians' quality of life and help them to remain active and connected to their communities.

This report provides an update on the operation of the HCPP for the period between 1 July 2019 and 30 September 2019 (referred to as the September 2019 quarter for the remainder of the report).

This report consists of four chapters:

- Chapter 1: assessment for home care and the number of approvals.
- Chapter 2: the delivery of home care services.
- Chapter 3: the prioritisation of people in the National Prioritisation System (NPS).
- Chapter 4: maximum exit amounts.

A Glossary is also provided at the end of the report explaining specific terminology and abbreviations used throughout the report.

Data in this report was collected from information systems and records held by the Department of Health (the department) and the Department of Human Services (DHS). Data was valid on the date of extraction. Data extracted on a different date may vary from that in this report.

Data is provided for the period between 1 July 2019 and 30 September 2019 with the exception of information on estimated wait times, which shows data as of 30 November 2019, in recognition that information for this indicator was available and assured at the time of publication.

CHANGE IN REPORTING METHOD

In previous reports, there has been a three month lag in the data showing the number of people in care and the number of new entrants, to account for receipt of provider claims by DHS. This was to enable claims information to be confirmed and ensure greater accuracy of data. An alternative indicator that the department uses to monitor the HCPP on a real time basis is how many people are in a committed package in the My Aged Care System at a point in time. Over time, the department has been monitoring this indicator against the delayed claims data and has found that variations for any point in time are usually within one per cent.

In recognition of the desire of the sector for more timely data on people in care and following testing of the accuracy of the committed count indicator, this report will use the number of people in a committed package as a proxy for people in care at 30 September 2019. Future reports will continue to use this indicator.

In addition to providing data on the number of people in a home care package at 30 September 2019, the report also includes 30 June 2019 counts to enable comparative analysis over time.

INCREASED INVESTMENT

On 25 November 2019, the Government announced that an additional \$496.3 million would be spent on 10,000 home care packages across 2019-20 and 2020-21. This included 3,000 level 3 and 2,500 level 4 packages in 2019-20 and 2,000 level 2, 2,000 level 3 and 500 level 4 packages in 2020-21.

The net impact of these changes is that around 44,000 additional packages at a cost of around \$2.7 billion have been allocated to the program over the forward estimates since July 2018. Table 1 provides a breakdown of the current number of allocated home care packages across the forward estimates.

Table 1: Number of allocated home care packages across the forward estimates

Package level	2019-20	2020-21	2021-22	2022-23
1	11,240	11,915	13,119	13,453
2	64,630	67,192	67,192	67,193
3	33,689	35,689	35,689	35,689

Total	150,412	156,148	157,353	157,686

Note – The totals may not add up to the sum of the four package levels due to rounding.

Further information on the HCPP, including eligibility, fees and recent reforms can be found at [Home Care Packages Program | Ageing and Aged Care](#).

1. ELIGIBILITY AND ASSESSMENT

DISTRIBUTION OF HOME CARE PACKAGE LEVELS

- There are four levels of home care packages to help meet senior Australian's different levels of care need (Table 2), which is determined by the outcome of an aged care assessment.

Table 2: Home care package annual subsidy, by package level from 1 July 2019 to 30 June 2020

Package level	Home care services for people with:	Annual subsidy amount (\$) paid by the Australian Government
1	Basic care needs	8,810
2	Low-level care needs	15,500
3	Intermediate care needs	33,731
4	High-level care needs	51,130

Note: The amounts in the table do not include additional supplements that a provider or consumer may be eligible for.

VOLUME OF HOME CARE APPROVALS

- There were 28,638 home care approvals in the September 2019 quarter (Table 3). This was 7.1 per cent (1,893) more than the approvals in the September 2018 quarter (26,745).

Table 3: Number of home care approvals in the September 2019 quarter, by state and territory of assessment, level and priority

Key point

- There were 28,638 approvals for a home care package in the September 2019 quarter.

2. HOME CARE SERVICE DELIVERY

NUMBER OF PEOPLE IN A HOME CARE PACKAGE

- There were 118,050 people in a home care package at 30 September 2019 (Table 4). This was an increase of 10.6 per cent (11,343) since 30 June 2019 (106,707) and a 30.2 per cent (27,404) annual increase from 30 September 2018 (90,646) (Chart 1).
- Of the 118,050 people, 55,446 were in a high level (level 3 or 4) home care package. This figure was 38.6 per cent (15,450) higher than 30 September 2018 (39,996).
- In addition to the 118,050 people in a home care package at 30 September 2019, a further 16,880 people were assigned a home care package and were considering within whether to take up their offer.
- The distribution of people in a home care package across states and territories largely follows the pattern of population distribution in Australia.

- Data on the number of people in care at 30 September 2019 and 30 June 2019 by Aged Care Planning Region (ACPR) can be found at Appendix A1 and A2 respectively.

Chart 1: Number of people in a home care package since 30 September 2018

- There were 18,367 new entries to home care in the September 2019 quarter (Table 5). This is the largest quarterly inflow of people into home care since the commencement of the Increasing Choice reforms.
- Further information on the number of new entries in the September 2019 and 30 June 2019 quarters by ACPR can be found in Appendix B1 and B2 respectively.

- Table 6 provides a breakdown of the proportion of the total number of people in a home care package according to the Modified Monash Model (MMM) classifications – with 1 classified as major metropolitan regions, ranging to 7 which is classified as the most remote regions. The data shows that proportions have remained stable over the past 12 months.

NUMBER OF APPROVED HOME CARE PROVIDERS

- There were 926 approved home care providers at 30 September 2019 (Chart 2). This was a decrease of 0.3 per cent (three providers) from 30 June 2019 (929) and an annual increase of 3.3 per cent (30 providers) since 30 September 2018 (896).

Chart 2: Number of approved providers of home care with home care services since 30 September 2018

Note: Approved provider count is based on the approval effective date and includes those providers with at least one active service provider.

- Appendix C provides the total number of approved home care providers in each ACPR that have indicated in My Aged Care that they have operational capacity to provide services across all four package levels in that region at 30 September 2019.

Key points

- There were 118,050 people in a home care package at 30 September 2019, a 10.6 per cent (11,343) increase from 30 June 2019 (106,707) and a 30.2 per cent (27,404) annual increase from 30 September 2018 (90,646).
- There were 18,367 new entries to home care in the September 2019 quarter.
- There were 926 approved home care providers with a home care service at 30 September 2019, a decrease of 0.3 per cent (three providers) since 30 June 2019 (929) and an increase of 3.3 per cent (30 providers) since 30 September 2018 (896).

3. NATIONAL PRIORITISATION SYSTEM

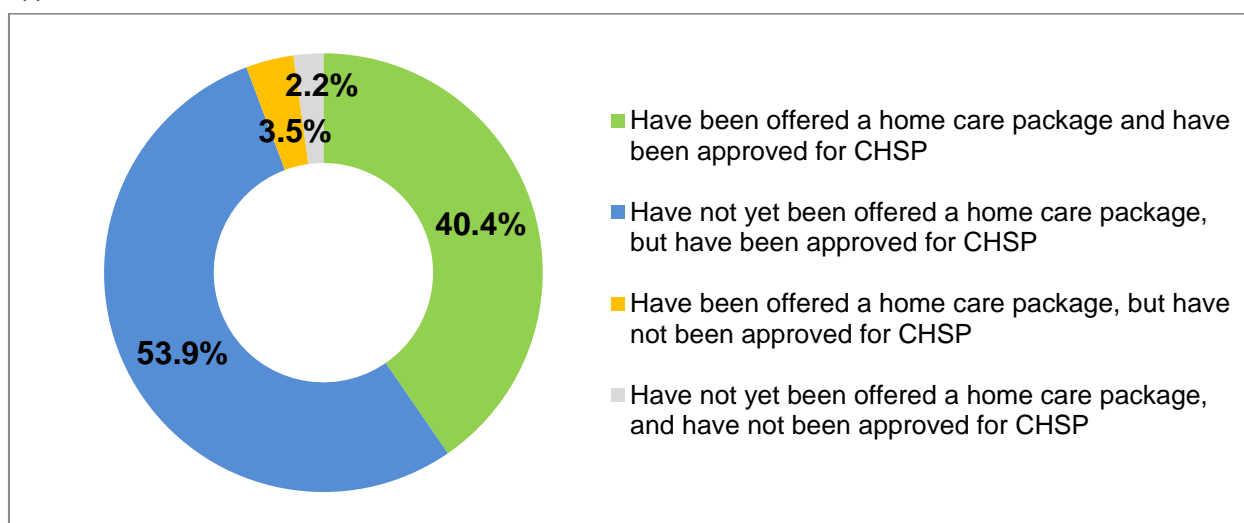

NATIONAL PRIORITISATION SYSTEM

- The NPS allows for a nationally consistent and equitable process for assigning home care packages based on people's individual needs and circumstances, regardless of where they live. A person's wait time is dependent only on their date of approval and priority for service.
- The NPS should be considered as more than a single queue. For example, the NPS includes people who have accepted a lower level home care package that allows them to connect with home care services early, as well as others that have not accepted a lower level package. It also includes people that have approvals for other care types such as residential care and CHSP who may not choose to take up their package.
- Packages are released on a weekly basis to all four package levels, across high and medium priorities to connect people to care as well as upgrade people in interim packages.
- Aged Care Assessment Teams assess a person's needs and, when making an approval for care, can approve a person for home care packages, residential care, respite care, transitional care, and CHSP, depending on the person's circumstances. Therefore, based on care needs and choice, not everyone with a home care approval will enter home care. The majority of people assessed by ACATs are approved for permanent residential care, reflecting their complex care needs.

ACCESS TO COMMONWEALTH HOME SUPPORT SERVICES

- In addition to receiving an approval for a home care package as an outcome of their assessment, most people are also provided with approval to access CHSP to assist with specific care needs identified during the assessment. Assessors provide these approvals to ensure people have options to address care needs, whilst awaiting their approved home care package.
- Of the people on the NPS who were waiting on a home care package at their approved level at 30 September 2019, 94.3 per cent had been approved for access to services through the CHSP.
- Additionally, people retain the option of accessing some specific CHSP services after they are offered a level 1 or 2 home care package when their budget has been expended or where additional short-term episodic care is required. Diagram 1 shows that 97.8 per cent of people in the NPS at 30 September 2019 had been offered a home care package and/or approved for CHSP services.

Diagram 1: Status of people in the NPS at 30 September 2019 who were waiting for a home care package at their approved level

PEOPLE WHO HAVE NOT YET BEEN OFFERED A HOME CARE PACKAGE

- At 30 September 2019, there were 62,942 people who were seeking a home care package at their approved level, who had not yet been offered a home care package (Table 7). Of these people, 96.1 per cent (60,495) had been provided with an approval to access CHSP.
- The number of people with a level 4 approval who were seeking a package at their approved level, who had not yet been offered a home care package, has fallen by 43.7 per cent (7,065) from 30 September 2018 (16,170) to 30 September 2019 (9,105).

Total	62,942	60,495	96.1%

PEOPLE WHO HAVE RECEIVED AN OFFER OF AN INTERIM PACKAGE

- At 30 September 2019, there were 49,295 people who had been offered an interim home care package while they wait for a package at their approved level.
- Those offered an interim package fell into three response categories (Table 8):
 - those who accepted their offer and were receiving care (28,206)
 - those who have not yet accepted their offer but whose offer was still open (i.e. within 56/84 days of offer) (9,391), and
 - those who did not take up their previous offer(s) (11,698).

Table 8: Number of people who have been offered a package while they wait for their approved level, by response category and level of approval at 30 September 2019

Approved level	Number of people in an interim home care package	Number of people offered an interim home care package, who had <u>not yet accepted</u> their offer	Number of people offered an interim home care package that <u>did not</u> take up their offer

Level 4	10,829	2,040	5,004
Total	28,206	9,391	11,698

- Of the 11,698 people who had not taken up their previous offer(s) of a package, 89.6 per cent (10,476) had been provided with an approval to access CHSP (Table 9).

Level 4	5,004	4,041	80.8%
Total	11,698	10,476	89.6%

PEOPLE APPROVED FOR RESIDENTIAL CARE

- Many people have approvals for both home and residential aged care, and some will choose to take up a residential care place instead of a home care package. At 30 September 2019, 68.3 per cent (76,617) of people in the NPS had dual approvals, having been approved for a permanent place in a residential aged care facility, reflecting their complex care needs, and also seeking a home care package at their approved level (Table 10).

Table 10: Number and percentage of people waiting for a home care package at their approved level who were also approved for permanent residential care, by level of approval at 30 September 2019

Approved level	Number of people waiting for a package at their approved level who also have an approval for permanent residential care	Number of people waiting for a package at their approved level	Percentage of people waiting for a package at their approved level who also have an approval for permanent residential care
Level 1	1,083	3,673	29.5%
Level 2	20,527	39,072	52.5%
Level 3	31,594	42,514	74.3%
Level 4	23,413	26,978	86.8%
Total	76,617	112,237	68.3%

- While many people seek to choose to remain in their own home, this is not always possible. For people with high level care needs, for example, requiring care morning and evening across seven days, they may need to consider the benefits of the level of support offered by residential care.

DISTRIBUTION OF PEOPLE ACROSS STATES AND TERRITORIES

- The distribution of people who have not been offered a home care package across states and territories largely follows the pattern of population distribution in Australia (Table 11).

Table 11: Number of people waiting on a package at their approved level who have not been offered a lower level package, by state and territory of residence and level of approval at 30 September 2019

Share	5.8%	41.8%	37.9%	14.5%	100.0%	

Note: A person with an approval at multiple levels is only counted once - at their highest active approved level.

- The number of people waiting on a home care package at 30 September 2019 who had not been offered a lower level home care package, by ACPR is found in Appendix D.

WAIT TIMES

- All people approved for a home care package, and seeking services, can access their individual expected wait time to receive their first package, and their approved package in time bands.
- A person's place in the NPS is solely based on date of approval and priority for care. Estimated wait times at 30 November 2019, for a person with a medium priority approval joining the NPS for a package by level, are provided in Table 12.
- People approved for a higher level package have the option of taking up a lower level package to connect to care as early as possible. They may also have the option to access CHSP services, ensuring that the strong majority of people have access to Commonwealth subsidised care in their home.

Table 12: Estimated wait time for people entering the NPS on 30 November 2019, by package level

- Information on the number of packages released by ACPR and level for the September 2019 quarter can be found at Appendix E.

Key points

- At 30 September 2019, there were 62,942 people who were waiting for a package at their approved level who had not yet been offered a lower level home care package. Of these people, 96.1 per cent had been provided with an approval to access CHSP.
- At 30 September 2019, there were 49,295 people who had been offered an interim home care package while they wait for a package at their approved level.
- 48,100 home care packages were released during the September 2019 quarter, with 80.9 per cent (38,900) being offered to people who were not in an interim package.

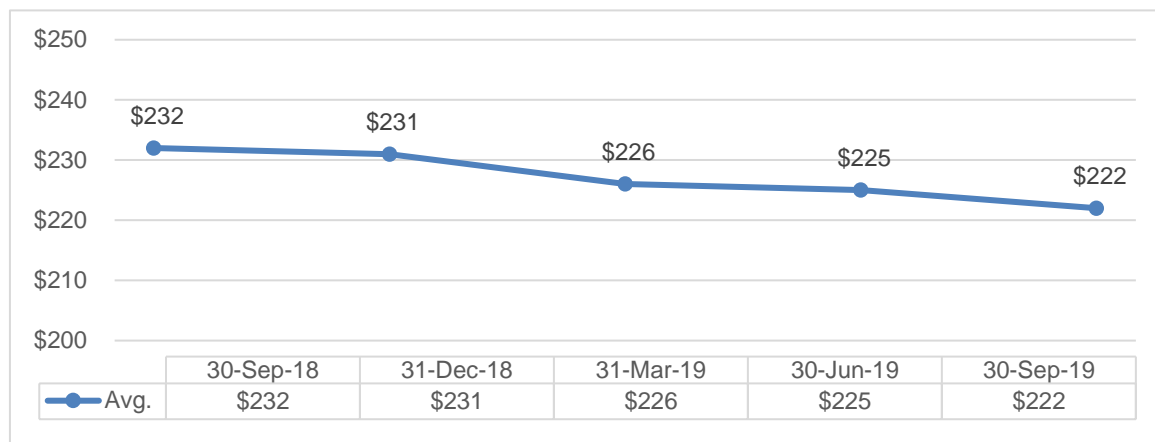

4. MAXIMUM EXIT AMOUNTS

An exit amount is an amount that can be deducted by a home care provider from a person's unspent home care package amount if the person leaves their care. This may happen if the person decides to change their home care provider or when they leave home care altogether.

The maximum exit amount represents the highest dollar value the provider can include in a person's home care agreement and must be published on the My Aged Care website.

- The average published maximum exit amount of all providers at 30 September 2019 was \$222 (inclusive of amounts of \$0 and where no amount was provided) (Chart 3). This average had decreased by 1.3 per cent (\$3) since 30 June 2019 (\$225) and decreased by 4.3 per cent (\$10) since 30 September 2018 (\$232).

Chart 3: Average maximum exit amount published by home care providers since 30 September 2018

Note: All approved providers, irrespective of whether or not they publish an amount, are included in determining the average.

- 41.4 per cent of approved home care providers had indicated that they would not deduct an exit amount at 30 September 2019, stable from 41.6 per cent at 30 June 2019.
- Seven providers published a maximum exit amount of \$1,000 or more at 30 September 2019. This count has been gradually trending down over time (Table 15).

Table 15: Number of approved home care providers with a published maximum exit amount of \$ 1,000 or more

(B) No. of providers with a published maximum exit amount of \$1,000	6	6	6	5	4
Combined (A)+(B)	11	10	10	9	7

Key points:

- At 30 September 2019, the average published maximum exit amount was \$222.
- At 30 September 2019, 41.4 per cent of all approved home care providers indicated that they would not deduct an exit amount.
