**SUBMISSION OF
EXPRESSION OF INTEREST
VIA TRYBOOKING
REQUIRED**

The Aged Care reforms are coming, is your Board ready? Will your organisation survive? Come and join us for a lively Round Table discussion for Directors of aged care services within the Northern Sydney region.

This interactive session will explore the following areas:

- * Emerging trends and forces in Aged Care: business models and sustainability
- * Emerging issues in governance for Boards that you need to prepare for (i.e. beyond the aged care reforms)
- * Aligning your Board strategy and then your service to face the future aged care environment: identification of strengths and gaps
- * Risks and opportunities: what are the areas where strategic transformation might be required, and how to go about it

This facilitated Round Table discussion will aim to:

- enhance the participants' understanding of the reforms from a strategic perspective
- provide a platform for participants to connect and share insights about the transition to the new aged care model
- support participants to identify concrete strategies/suggestions to take to their Boards for further discussion

Facilitator: Brendan Walsh, Conscious Governance - For biographical details: [click here](#)
