

Northern Sydney Quality Forum

Advisory Bodies: Best Practice Principles

**Presented by Cynthia Payne
Founder & Managing Director,
Anchor Excellence**

Cynthia Payne has more than 30 years of executive leadership experience and over 20 years as a Director in both NFP and FP boards. Cynthia founded Anchor Excellence in 2018, and is passionate about leaders, supporting and enabling them, as defined by consumers' lived experience.

For 6 months now, approved providers must have in place a Quality Care Advisory Body (QCAB) and must offer to establish a Consumer Advisory Body (CAB).

This webinar will outline the best practice principles for establishing and running advisory bodies. For providers who are not required to have advisory bodies in place, the session will provide valuable insight into how advisory bodies can benefit governing body priorities and decision making – and ultimately benefit client experience and quality care delivery.

This session will support your understanding of Quality Care Advisory Bodies and Consumer Advisory Bodies:

- What we've learnt so far about advisory bodies in aged care
- Practical insights into ensuring successful implementation and outcomes
- What's required in setting up effective advisory bodies, taking a codesign approach
- The purpose of advisory bodies, in bringing consumer priorities to the board table
- Your obligations as a Board Director and as a Provider.

Tuesday 18 June 2024

10am - 11.00am AEST

Online Via Zoom

Free
