As a board member of an in-home aged care provider, how are you preparing for the Strengthened Aged Care Quality Standards? The Aged Care Quality and Safety Commission's latest Sector Performance Report shows one third of home care providers failed to comply with all 8 of the Quality Standards. This session will look at what board members need to consider ensuring best practice in their governance duties.

This session is designed for Board Members and will cover:

- Expert guidance on compliance posture for regulatory peace of mind
- Strategies for risk mitigation and monitoring
- A quality-focused approach to enhancing care for older people
- Fostering team development for shared success
- Your readiness for the implementation
- A thorough explanation of the Strengthened Aged Care Standards
